

# Southwestern Willow Flycatcher

THE USDA NATURAL RESOURCES CONSERVATION SERVICE IS A LOCAL RESOURCE FOR INNOVATIVE CONSERVATION SOLUTIONS TO IMPROVE THE LAND AND PROTECT YOUR WAY OF LIFE.

Financial and technical assistance is available to plan and implement conservation practices on riparian areas and associated ag land

through the Environmental Quality Incentives Program (EQIP). The goal of the program is to recover the species, improve riparian health, and provide Endangered Species Act (ESA) predictability to landowners and operators. NRCS may help you with some of these practices. ▶▶▶

- Prescribed Grazing
- Brush Management
- Streambank Stabilization
- Grade Stabilization
- Fence
- Watering Facility
- Riparian Forest Buffer
- Access Control

## Application Summary for this Initiative

Applications may be submitted at any time and will be evaluated periodically as funding becomes available. Batching periods are established based on available funds.

The current application batching period will end **March 20, 2015.**

Please call for a consultation ▶▶▶
